# ABOUT ME

I'm Sirsha, from Kolkata, now based in Mumbai. I studied English at Calcutta University and later pursued fashion design, focusing on visual storytelling, styling, and design.

I work as a production designer and also as an artist across films, web series, ads, music videos and other commercial projects. I've collaborated with ZEE5, Hoichoi, Ogilvy, Aditya Birla Group, Saregama, and worked on independent films at Satyajit Ray Film and Television Institute.

My work in A Square Designs, a prestigious interior design firm was featured in AD and ELLE DECOR. In addition I've contributed to projects under Land Ports Authority of India.

I'm detail-oriented and collaborative, driven by a strong focus on texture, pattern, colour, and well-executed design.

# FILM POSTERS

A bunch of film posters I worked on, each with its own mood and story. I experimented with layouts, colours, and small details to make each one feel distinct.
